

DATA DISPLAY GROUP

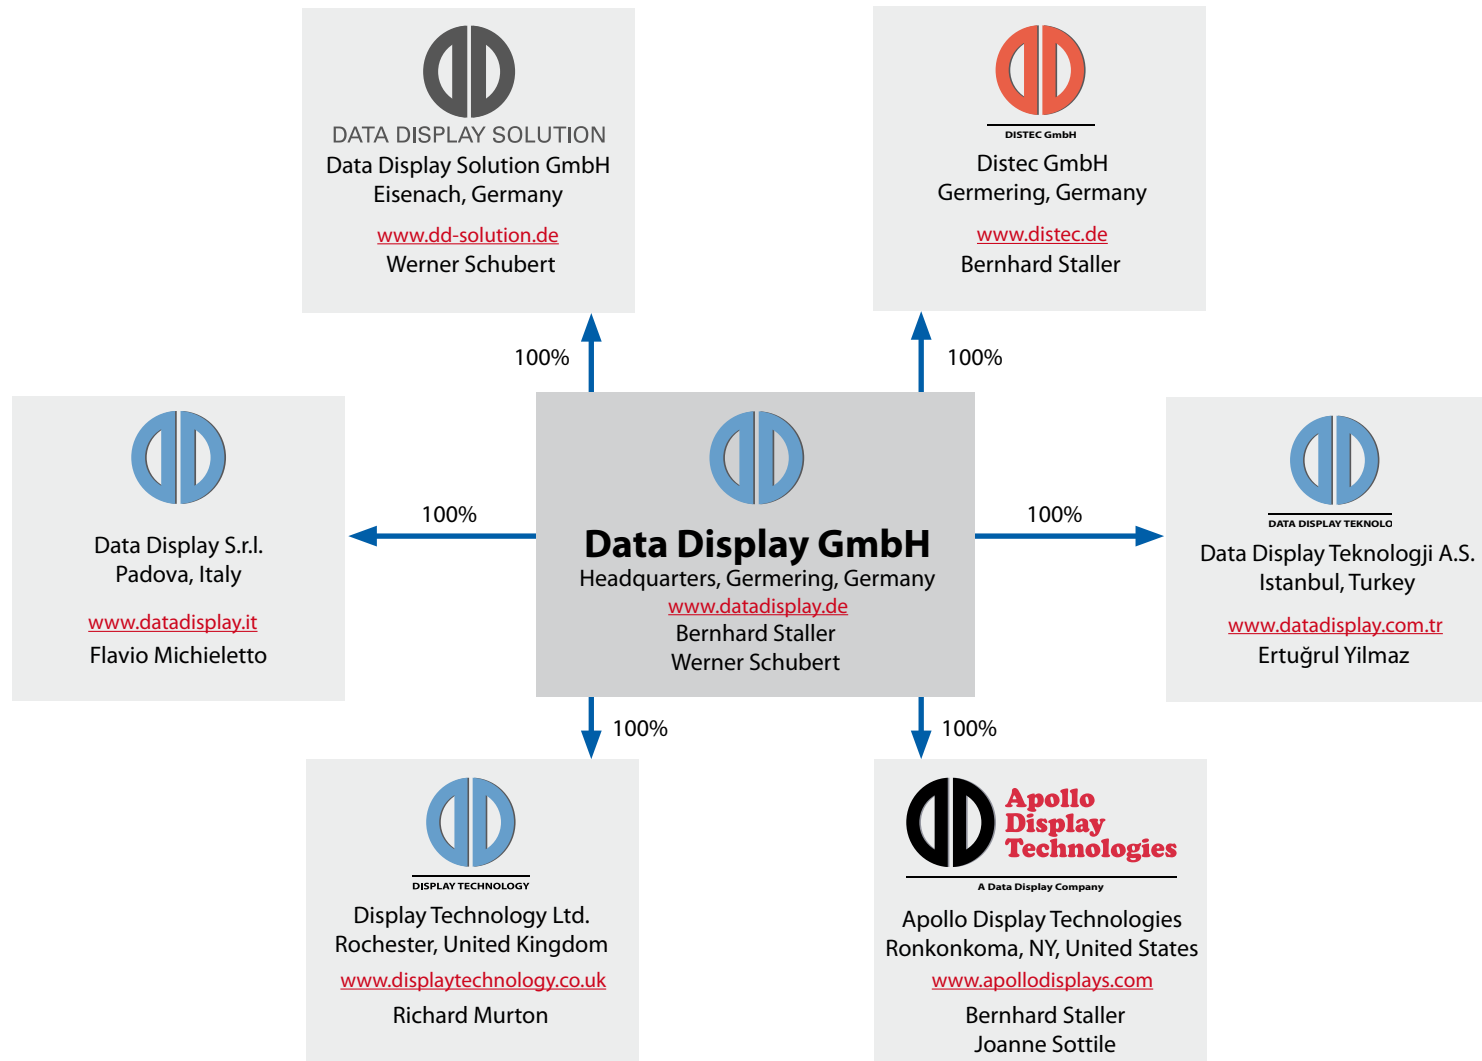

Corporate Presentation

Vision and strategic goals

- ▶ Data Display group is worldwide known as provider for state-of-the-art TFT technology and system solutions.
- ▶ In a world of global competition, global sourcing and high visibility via Internet, the Data Display Group is determined to keep a leading position with products unique in technology and competitive in pricing.
- ▶ Our mission is the development of world class TFT controllers and corresponding software for industrial- and Digital Signage markets. The developments are strictly focused on our customers needs to bring the best results for competitive customer products. Keeping a leading position in TFT distribution completes our business activity.
- ▶ Founded in 1993, the Data Display Group shows more than 18 years deep experience in TFT technology. Our mission is the transformation of available technology in easy-to-use products and solutions.
- ▶ Our key aspects are:
 - Quality & Reliability** – Production on latest production technologies and highest reliability.
 - Innovation** – Significant investment in R&D for continuous release of sophisticated products.
 - Usability** – As many functions as necessary with self explanatory handling.
 - Environmental Protection** – Development of products with the lowest power consumption and produced under the best environmental protection; lowest use of natural resources in our buildings and daily work.

DATA DISPLAY GROUP

Our business segments

Components

Distribution of industrial passive and TFT panels, TFT controllers and accessories

Finished products

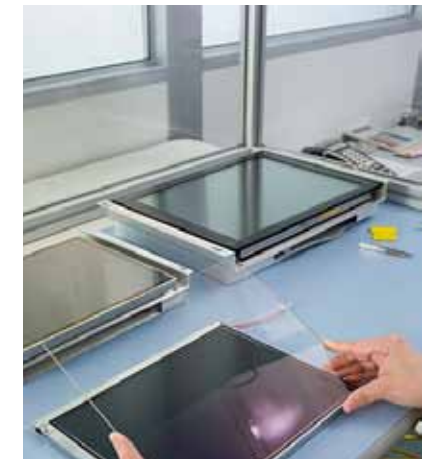

Industrial grade monitors and multi-display devices

Solutions

Software and hardware solutions for digital signage

Custom projects

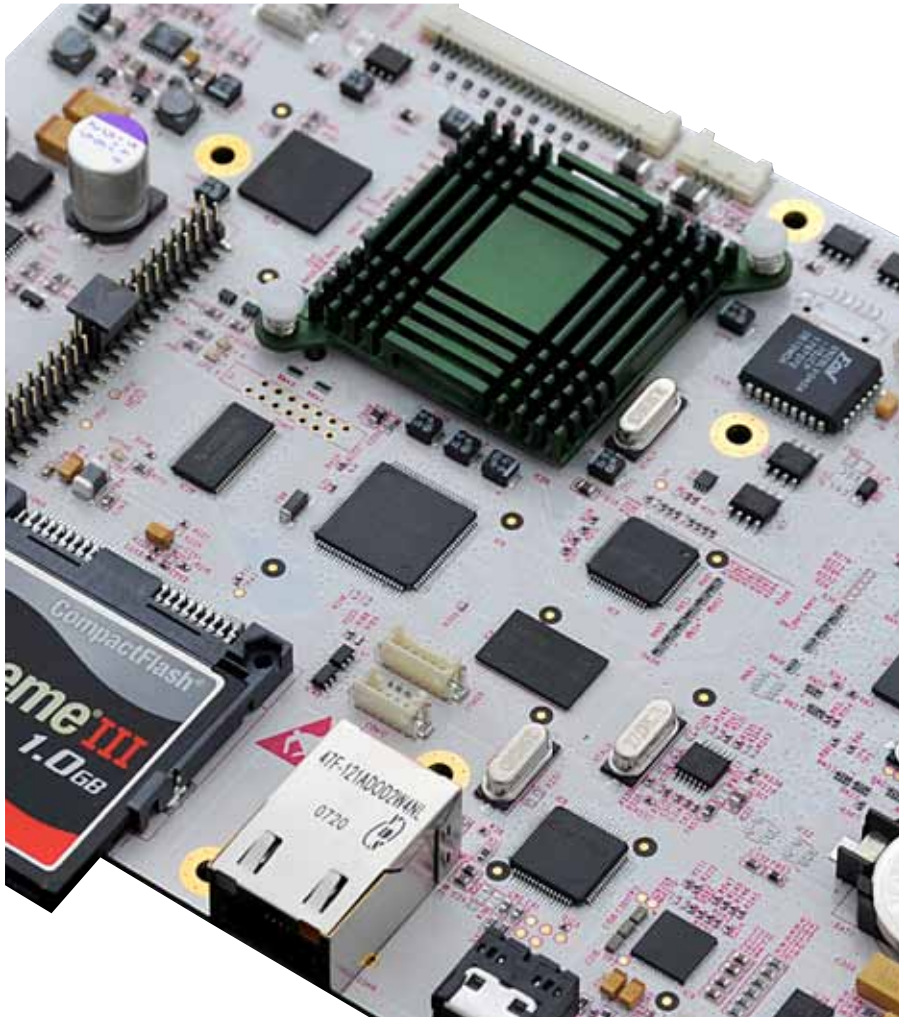

Individually customized hardware and software designs

DATA DISPLAY GROUP

Components

ArtistaMEDIA, industrial grade video player

Range of products

- Distribution of industrial passive and TFT panels from leading Asian manufacturers 1.2" to 82"
- Development, production and sales of a broad range of industrial TFT controllers for various applications
- Ready-to-use TFT kits with controller and all accessories like cables, touch, inverter, OSD...
- Services for custom adjustments of on-board software

Customer value

- 17 years of experience in developing TFT technology
- Leading supplier of high technology products with continuous product innovations
- Local presence and engineering in Europe and US markets
- Industrial-grade products with highest quality for long-term operations

Finished products

Monitor Albra, 2 x 46"

Range of products

- Industrial-grade monitors from 8.4" to 70" in various design variants
- Manufacture of exclusive movable monitors for the integration into tables of meeting rooms and control centers
- Multi-display devices which integrate several displays into one enclosure
- Related services like custom designs, support, installation...

Customer value

- Reliable product made of industrial components only
- Long-term availability and product lifecycles are a protection of your investment
- Implementation of project specific requirements
- Industrial products

Solutions

Multi Display Technology, 28 x ArtistaUSB monitor and MediaControlBox

Range of products

- Development and sale of software and hardware products for digital signage and door sign applications
- Engineering support for project specific requirements
 - hardware and software configuration
 - construction
 - installation and service

Customer value

- Innovative maintenance-free products reduce total cost of ownership
- Green technology with power saving hardware
- Selection of best suited TFT panels based on 17 years of experience
- Local presence and engineering in Europe and US markets

DATA DISPLAY GROUP

Custom projects

Istanbul Crisis Center, 56 x Modis 170 (movable monitor)

Range of products

- Development and production of individually customized hardware boards (TFT controller) and software components
- TFT panel modifications in clean room environment
- Implementation of individual digital signage projects based on the groups hardware and software solutions

Customer value

- Experienced hardware and software development team
- Innovative and practice-oriented solutions for the future
- Confidentiality
