To the customer

LCD Panel / Production Discontinuation Notice(PDN)

Regretfully, Panasonic Industrial Solutions Liquid Crystal Display Company has decided to end LCD panel production by CY2021 so as to concentrate our resources on other strategic areas within our targeted industrial and automotive markets.

This decision was reached after a long and thorough evaluation of many factors of the business, and in the end, it has been judged that continuing the business would be difficult and a decision was made to stop production.

We greatly appreciate your business, and we look forward to working with you to minimize any inconvenience this decision may have caused. Our sales team will contact you shortly to give you more information pertaining to the PDN of our LCD panels business and will discuss the details of the close of the business.

Thank you very much for your business

Best regards,

Panasonic Corporation
Industrial Solutions Company
Yoshitaka Teraoka, Vice President

Panasonic Liquid Crystal Display Co., Ltd
